

# Asi

Delivering sustainable, design-forward products that **enrich the built environment** and **deepen human connection to nature and community.**

## OUR VALUES

### Customer First

We prioritize our customers in every decision, recognizing them as the source of our innovation, growth, and reputation.

### Operational Excellence

We move with purpose, embracing continuous learning and improvement to deliver exceptional processes, products, and services.

### Sustainable Innovation

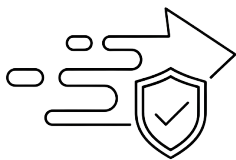

We solve problems through the lens of design, sustainability, and community to create architectural products that are as responsible, as they are beautiful.

### Embrace the Journey

We meet challenges and diverse perspectives with courage, integrity, curiosity, and open communication—working hard, celebrating wins, and staying true to the values that shape our family business.

## WHAT SETS US APART

### Speed & Reliability

- Same Day Shipping
- 150K+ sq. ft. Inventory
- 85% of customers receive their orders within two days of shipping

### Innovative Designs

- 50+ Finishes
- 3 Materials
- Custom Color Matching
- Moss & Living Walls

### Support Beyond the Sale

- Up to 5 Year Warranty
- Responsive Same Day Service

# Eco-Fiberglass Collection

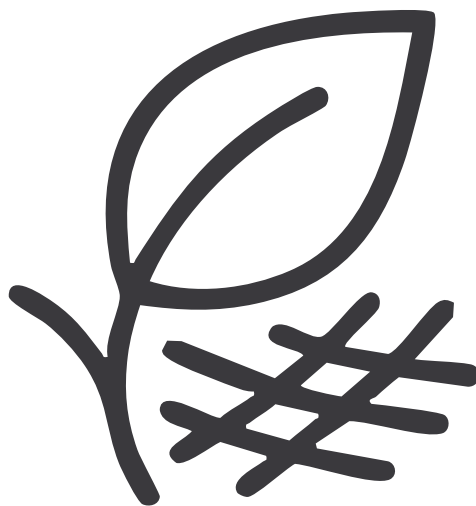

## Sustainable Style for Indoors & Out

Our Eco-Fiberglass planters are made with a proprietary resin that uses 30% less fossil fuel than traditional fiberglass, delivering high-end design with a smaller environmental footprint.

### Key Features

- 30% reduced fossil fuel content
- Indoor & outdoor use
- Lightweight, durable, and UV-resistant, perfect for outdoor use
- Designer finishes for any environment

**Eco-conscious. Design-forward. Built to last.**

"Yes" means the product has been properly reinforced for direct planting. "Shelf" means the product was designed with a shelf to support a grow pot and should not be direct planted without proper reinforcement. If direct planting in an item with a "Shelf" designation is needed, we can reinforce for an additional charge. Planters being installed outside should have drainage holes. Planters being installed indoors should be lined with 1 mm plastic.

# Recycled Plastics Collection

## Smart. Sustainable. Specifier-Ready.

Made from post-consumer recycled ABS plastic, these planters offer one of the most sustainable synthetic options available. Lightweight, durable, and fully recyclable, they're ideal for projects focused on environmental responsibility, and can help contribute to LEED certification.

Perfect for indoor and outdoor spaces, this collection combines modern design with meaningful impact.

## Key Features

- Made from post-consumer recycled ABS plastic
- Supports LEED credit eligibility
- Lightweight, durable, and recyclable
- Suitable for indoor and outdoor environments

## Smart materials. Sustainable results.

# Reclaimed & Mixed Materials Collection

**Character. Craft. Conscious Design.**

This collection offers planters with unique textures, natural imperfections, and a story behind every piece. By blending materials, these designs bring warmth, authenticity, and sustainability into modern spaces.

## Key Features

- Artisanal craftsmanship
- Unique textures and natural character
- Supports sustainable design practices

**Raw beauty. Refined purpose.**

\*Hard Liners are used in each product to contain the plant(s) and keep water inside the liner. The two largest cubes are made using Galvanized Steel liners. To ensure water integrity an ASI flexible liner is included in these two large cubes.

\*\*Inside height is the measurement from the bottom of the liner to the top of the planter.

# Fiberclay & Fiber Stone Collection

## Handcrafted Strength. Natural Simplicity.

Made by reinforcing handcrafted clay with fiberglass mat, this collection offers a durable, cost-effective solution for both indoor and outdoor environments. These planters are UV-stable, frost-resistant, and finished with water-based paints—making them a truly resin-free, environmentally friendly choice.

With a natural look and dependable performance, Fiberclay and Fiber Stone planters offer designers the perfect balance of style and sustainability. They deliver the textured appeal of traditional ceramics without the added weight. Making them a smart choice for modern spaces.

## Key Features

- Handcrafted clay reinforced with fiberglass mat
- Resin-free, VOC free and finished with water-based paints
- UV-stable and frost-resistant
- Suitable for indoor and outdoor use
- Cost-effective and environmentally friendly

## Natural materials. Modern textures.

# NATURAL/ LIVING WALLS

# Natural Wall Products & Room Dividers

## Organic Beauty. Zero Maintenance.

Crafted from a variety of preserved mosses and natural materials, our wall products and room dividers bring the outdoors in—without the upkeep. Sustainably harvested and expertly preserved, they require no light, water, or maintenance to retain their vibrant, natural appearance.

Perfect for interior environments where biophilic design meets low-maintenance practicality.

## Key Features

- Made with sustainably harvested preserved moss and natural materials
- No light, water, or maintenance required
- Ideal for interior walls and space dividers
- Supports biophilic, wellness-focused design
- Sound absorption

## Nature-inspired. Effortlessly enduring.

## Moss Wall Options Offered by ASI

### Custom

Unique moss wall design and production. ASI handles both design and build, offering tailored solutions for any space or concept.

### Quick Ship

Fast-turnaround, flexible, minimalist design. Includes pre-made moss circles, Biomontage panels, and room dividers—ready to ship and install.

### DIY Loose

For hands-on customers and creative projects. Customers design and build using loose moss products, ideal for custom installations or artistic applications.

**BioMontage<sup>®</sup> Frames & Panels**

# Living Walls

## Scalable Green Design. Engineered to Thrive.

We offer a range of living wall solutions to suit projects of every size. Our NextGen Living Wall System is the premier choice—scalable from small installations to multi-story vertical gardens. It can be manually watered or equipped with automated irrigation, offering flexibility for any environment.

For small spaces, use our paintable planter trays individually or as modular components for compact living walls. Our Planter Portraits, available in three sizes and standard colors, provide a ready-to-hang way to bring greenery to any wall.

## Flexible systems. Living beauty. Built to grow.

Metal stand with four caster wheels, base cover, mounting hardware, grid system, planting trays, integrated drain hoses, and leaf screens.

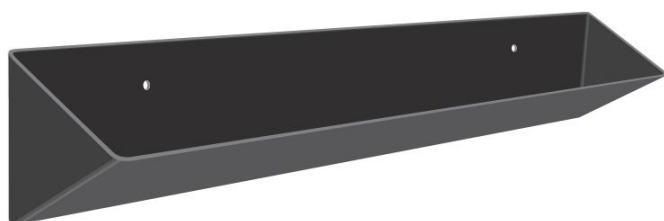

## Finish Options:

Standard side panel color is High Shine White. A wide selection of additional gloss and matte finishes is available for an up charge.

# Planter Trays

# Planter Trays

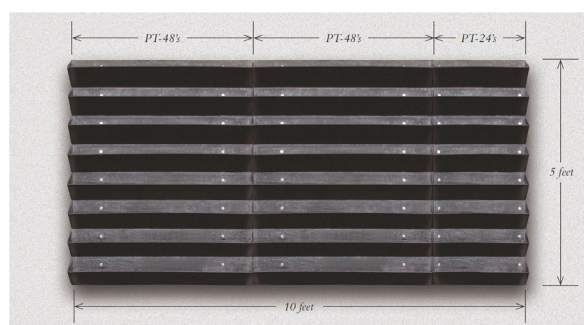

## Planter Tray

Ideal for simple living wall projects. Designed for mounting directly to the wall, the tray holds virtually any 6" grow pot and is easily planted and replanted. Planter Trays are available in three sizes 24", 36", and 48" allowing the creation of walls of many different dimensions.

## Wicked Grow Pot in Tray with Water

Wicks have long been a successful method for extending watering cycles in commercial environments. By applying wick technology to a tilted grow pot, watering cycles of up to 4 weeks can be achieved. Simply add the specified amount of water to each tray and allow the tray to go empty for a few days before watering again.

Planter Tray	Description	Total Number of 6" Plants	Total Amount of Water Per Unit	Approximate Weight (lbs.) Fully Planted/ Watered	Coverage When Planted* (Sq Ft)	Tray Height	Distance (Inches) Coming Off Wall	
							Unplanted	Planted
FPT-24	Planter Tray 24" L for 6" Plants	2-3	1.5 to 2 qts.	12 to 16 lbs.	1.25 to 1.5	7.5	8.5	12-24
FPT-36	Planter Tray 36" L for 6" Plants	4-5	2 to 2.5 qts.	20 to 25 lbs.	2 to 2.5	7.5	8.5	12-24
FPT-48	Planter Tray 48" L for 6" Plants	5-7	3-4 qts.	28 to 35 lbs.	2.5 to 3	7.5	8.5	12-24

## Planter Trays – Unplanted

Trays for this 50-square-foot wall install in approximately one hour

## Planter Trays – Planted

Wicked plants install in less than one hour in this 50 square foot wall.

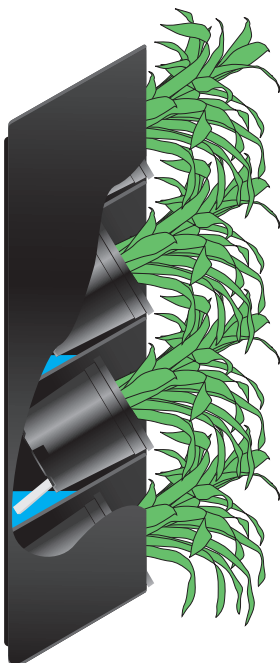

# Plant Portrait

# Planter Portrait

Models	Front Length/Width	Front Height	Depth	Total Height	Water Capacity Each Shelf*	Total Plants
PP-1632	16	32	8.5	36.5	1 to 1.25 quarts	8
PP-2432	24	32	8.5	36.5	1.5 to 2 quarts	12
PP-3232	32	32	8.5	36.5	2 to 2.5 quarts	16

\*Each Plant Portrait contains 4 shelves.

## Shelf and Wick System

Simply add 3-4 wicked plants to each shelf and fill each shelf with water. Watering cycle is normally 1-2 weeks.

Rails on back allow for air circulation

# Accessories

## Smart Solutions. Naturally Aligned.

Our accessories are designed to enhance the functionality and longevity of interiorscape installations. From waterproof liners and sub-irrigation inserts to moss for custom wall projects, each item supports effortless plant care and seamless integration with ASI's planters.

# Accessories

# Sub-Irrigation

## Air and Water Delivered Directly to the Roots

Developed in collaboration with Dr. Joseph Cialone, Ph.D. in Horticultural Sciences, this innovative sub-irrigation grow pot is designed to optimize plant health and simplify maintenance.

### • 2" Taller Than Standard Grow Pots

Allows for easy transfer of the root ball with minimal plant stress or trauma.

### • Compatible with Standard Decorative Containers

Fits seamlessly into the same containers used for traditional grow pots.

### • Built-In Water Level Indicator

Clearly shows when watering is needed—no guesswork required.

### • Enhanced Air and Water Flow

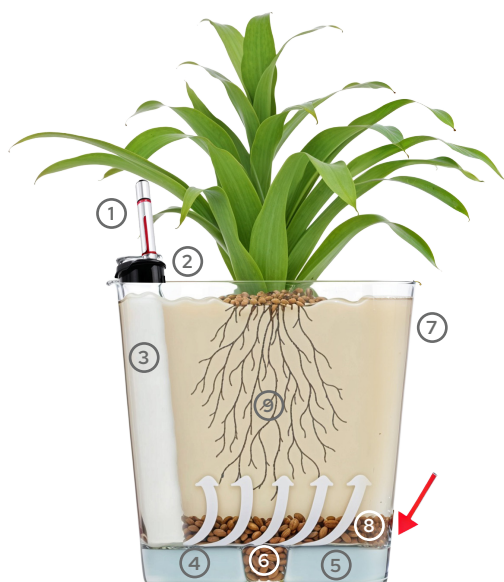

Strategically placed air holes and Light Expanded Clay Aggregate (LECA) ensure optimal oxygenation and moisture distribution to the root zone.

### • Extended Watering Cycles

Sub-irrigation typically requires watering only every 2 to 3 weeks.

Actual watering frequency may vary depending on plant species, humidity, light levels, and growing medium. More frequent watering may be necessary during the first month of use.

Sub-Irrigation System	Top Outside Diameter	Outside Height	Base Outside Diameter	Transfer from	Water Reservoir Capacity
SUB-06	6.5	6.5	5.25	6" Grow Pot	0.75 quarts
SUB-08	8.75	8.75	7	8" Grow Pot	1.4 quarts
SUB-10	10.6	10.4	8.1	10" Grow Pot	1.9 quarts
SUB-12	12.25	12.5	9.5	12" Grow Pot	2.5 quarts
SUB-14	13.9	14.2	10.6	14" Grow Pot	3 quarts
SUB-17	17.2	16.5	13.4	17" Grow Pot	5 quarts

1. Water Level Indicator
2. Cap
3. Fill Tube
4. Internal Shelf
5. Water Reservoir
6. Wicking Area
7. ASI Hard Liner
8. LECA
9. Plant Root Ball

For outdoor use, drill several 1/4" holes around the circumference of the pot, 2.5" up from the bottom

# Vulkaponic

## Key Benefits

- Outstanding water Retention: Holds over 30% water by volume.
- Superior Aeration: Maintains 35%+ air pore volume for healthy roots.
- High Nutrient Storage: Supports long-term plant vitality.
- Reduced Risk of Root Rot and Fungus Gnats.
- Up to 67% fewer plant replacements compared to traditional soil systems.

## Economic Impact

- Extended watering cycles (up to 4 weeks) reduce labor costs by 25-37%.
- Fewer replacements and reduced service frequency improve profitability.
- Proven results across 1,065+ sites with 12% reduction in monthly service hours.

## Product Details

- Premium mineral substrate made from pumice and zeolite.
- Designed for semi-hydro sub-irrigation in waterproof containers.

*Available in 1500L super sacks, 25L bags and full container loads. NEW!*

**Planter waterproofing offered upon request for an additional charge.**
